

Link to the simulation:

https://phet.colorado.edu/sims/html/coulombs-law/latest/coulombs-law_en.html

Use the simulator on Coulomb's Law law to solve the following questions

Instructions 1:

- 1- Set the distance between the masses to 7 cm
- 2- Set Charge 1 to $-3\ \mu\text{C}$
- 3- Set Charge 2 to $4\ \mu\text{C}$

Questions:

- A- What is the Value of the Force on q_1 by q_2 and in which **direction**?
- B- What is the Value of the Force on q_2 by q_1 and in which **direction**?
- C- Is it a repulsive or attractive force?
- D- Increase and decrease the Charges, how does the Force change with the charges?
- E- increase and decrease the distance, how does the force changes with the distance?
