

## Strategic Growth Consultant Willing To Partner With *You*

*2 minutes to read, another 3 minutes reasoning.*

What's going on, Jasmine?

Your latest ad on facebook expressing the most recent 'alpha' fragrance involving triplets, had me chuckling at the aggressive use of hardcore seduction jammed into the mind of your consumer.

Leading with such an imaginary ad is so **bold**, but the ad itself.. Did you daydream of your persuasion maximizing profits for the business?

Jasmine, let's not waste anymore of your time.

Wasting such a precious commodity on advertisements that have ~~little~~ potential to magnify your revenue for your business.

### **We'll discuss**

- [Landing Pages](#) For Your Targeted Audience.
- [Sales Funnel](#) To Keep A Loyal Customer
- Niche Tricks To [Improve Conversion](#)

My job title is a 'copywriter' but, working with businesses and showing where we can improve (**nothing is perfect, there is always room for improvement**) is where I know my potential with you burns brighter than a nebula star as your Digital Marketing Expert .

We'll start off with smaller projects for us to build a relationship and will certainly be priced appropriately.

Invest into the commodity and I'll show you results.

If this is something you're in need of, pull the trigger.
