Professional Summary

Frontend Developer with 5 years of experience specializing in building modern, pixel-perfect web applications. Proven expertise in React, Next.js, and Shopify development.

Professional Experience

Frontend Developer | [Lukuku Co](#) (Seoul, Remote)

2022 – 2026

- Led a small frontend team and managed the task efficiently.
- Architected and developed performant, responsive web applications using React and Next.js.
- Built and customized Shopify themes and storefronts to precisely match client designs and branding.
- Developed and integrated custom Shopify apps and functions (e.g., discount logic, checkout extensions) to extend platform capabilities.
- Fostered effective communication with backend teams to define API requirements and ensure seamless integration.
- Advised UI/UX designers on technical feasibility and suggested iterative improvements for better user experience and development efficiency.

React Developer | [Sunbi](#) (Kathmandu)

2020 – 2022

- Developed and deployed responsive, interactive landing pages and web applications from design prototypes.
- Integrated frontend applications with RESTful APIs to ensure dynamic data flow and functionality.
- Collaborated closely with designers and project managers during onboarding and scoping to align technical execution with client goals.

Junior Frontend Developer | [Iceberg Technology](#) (Kathmandu)

2019 – 2020

- Built custom WordPress themes from scratch, incorporating modern HTML, CSS, and JavaScript.
- Implemented basic SEO principles during theme development to improve client site visibility.
- Gained foundational experience in full website development and deployment lifecycle.
