Dr Oluwadurotimi O. Akintade is a staff of the Department of Chemical Sciences, KolaDaisi University, Ibadan since 2019. She has B.Sc (Chemistry); M.Sc (Chemistry) from University of Ilorin in the year 2004 and 2009 respectively. She obtained her Ph.D Chemistry (Industrial unit) from University of Ibadan in 2019. She is a member of the following professional bodies: which are Institute of Chartered Chemists of Nigeria (MICCON); Science Association of Nigeria (SAN); Teachers' Registration Council of Nigeria (TRCN); America Chemical Society (ACS); Society of Environmental Toxicology and Chemistry (SETAC), North America, USA. She has published over fourteen international papers which include a chapter in a book; an article in referred proceedings; 13 articles have appeared in learned journals out of which one is local and two already accepted for publication. My contribution to knowledge is using pollution indices (Pollution Load Index, Ecological Risk Index, Enrichment Factor, Contamination Factor etc) and regression analysis/ANOVA to analyse river water parameters and this has helped to project to a large extent per distance the furtherance of pollution in all environmental matrices (soil, water, sediments and plants).

My contribution to the community, nation and world are as follows: engaging in admission drive for the university- 2020 till date; supervisor in census-2006; rural rugged programme by voluntary assistance to a community in Sokoto state to provide free lectures to their children in terms of education, health care services and other financial aids in 2005-2006; visiting orphanage homes at Ilorin, Kwara State, Lagos state respectively. Professional Accomplishments includes Programming Techniques - Computer Center, University of Ilorin, Ilorin, Kwara State (2000) and Postgraduate Diploma in Education at University of Ilorin, Ilorin, Kwara State in 2008.
