

Digital Citizenship Week 2025- Elementary Discussion Questions

Monday- Critical Thinking

Question of the Day:

How can we tell if something we see online is true or not?

Teacher Prompts:

- What are some clues that something online might not be true?
- Who can we ask for help if we aren't sure?
- Why is it important to double-check before sharing something online?

Tuesday- Curiosity

Question of the Day:

What is something new you want to explore or learn more about online?

Teacher Prompts:

- How does asking questions help us learn?
- Can you think of a time when being curious taught you something new?
- Why is it good to explore more than just the same kinds of videos or games?

Wednesday- Creativity

Question of the Day:

How can we use technology to create something instead of just watching or playing?

Teacher Prompts:

- What kinds of things can we make with technology? (art, stories, videos, games, etc.)
- How does it feel when you make something you're proud of?
- Why is creating with technology different from just watching?

Thursday- Human Connection

Question of the Day:

What are some ways we can show kindness to others—online and in person?

Teacher Prompts:

- How can our words online affect someone's feelings?
- What's an example of a kind message you could send?
- How do we show respect when talking to someone face-to-face?

Friday- Healthy Habits

Question of the Day:

What is one healthy habit you can practice when using technology?

Teacher Prompts:

- Why do we need to take breaks from screens?
- What are some fun things to do without technology?
- How does turning off tech before bed help us?
