

IT IS EXTREMELY IMPORTANT FOR ALL PERSONS DROPPING OFF AND PICKING UP STUDENTS

FOLLOW THIS TRAFFIC PATTERN AND THESE PROCEDURES TO ENSURE **STUDENT SAFETY**

- There are three (3) dedicated student drop-off areas (see diagram): In front of Main school entrance; in front of Kindergarten entrance; and on Peyton near front of the blacktop.
- Additionally, drop-off is permitted behind the school at any point along Mount Vernon. We encourage drop-off on Mount Vernon and at the Peyton designated site to alleviate congestion in front of the school on Redman.
- NO PARKING is permitted in front of the school on Redman during morning drop-off. Doing this causes an unsafe backup of traffic which is a danger to our students.

- NO PARKING is permitted at any of the drop-off sites during morning drop-off, except along Mount Vernon.
- NO PARKING is permitted on or within 25 feet of crosswalks or blocking driveways.
- When dropping off students, stay in line and do not allow students to exit the vehicle until you have pulled up to the drop-off point.
- When reaching the drop-off point, students should exit the vehicle immediately. Please have students ready to exit before pulling up to the drop-off point.
- All students should exit the vehicle from the passenger side of the vehicle only.
- Parents should remain in the vehicle during morning drop-off. If you need to exit the vehicle to assist a student or to enter the school building, please park your vehicle on one of the blocks surrounding the school.
- Please do not perform K-turns, U-turns or back up your vehicle during or after dropping off students.
- Walking or biking to school is highly encouraged. The less vehicle traffic in the area during drop-off, the safer our students will be.
