Mention Abstract Theme (As mentioned on the conference website):

Abstract

The abstract should be 200-250 words single paragraph without subheadings, indentation or references. The abstract should include the problem statement, a description of the research methodology adopted, an outline of the results or outcomes, and finally, an ending note of the project's implications and contributions. The page margins should be 30 mm for the top, right, left, and bottom. Title of the paper (style: "Paper Title", 14 points, bold, centered) single rows, and is followed by 1.5 line spacing, Times New Roman 12 front. Bullets/lists or references are not to be included in the abstract. References could be provided at the end of the abstract and cited in brackets inside the body of the abstract. For numerical quantities, SI units are recommended with notations involving appropriate exponent for ex. (e.g. kg m⁻³). Chemical formulae are to be written in a standard form such as "MgCO₃", not as "MgCO₃". The standard practice of preceding a zero before decimal points such as "0.95," not ".95." is to be followed. After submission, the abstracts will be peer-reviewed, and acceptance will be intimated in due course. Subsequently, the authors will have to submit a full-length paper based on the template provided on the website.

Keywords: At least three keywords separated by semi colon (;)

Note: Please underline the name of the presenting author; No author limitation for paper submission
