

Scituate Grade 2 Summer Math Calendar

Complete one math activity each day based on Grade 1 Massachusetts standards.

Week 1:

Mon	Tue	Wed	Thu	Fri	Sat	Sun
$5 + 3 = \underline{\quad}$	Count from 42 to 52.	What number is 1 more than 17?	Find a triangle in your house.	$7 - 2 = \underline{\quad}$	Count by 10s to 100.	Write the number word for 15.

★ Family Challenge: Explain how you solved your favorite problem this week!

Week 2:

Mon	Tue	Wed	Thu	Fri	Sat	Sun
$9 + 6 = \underline{\quad}$	What number comes before 28?	Measure a pencil.	$8 - 5 = \underline{\quad}$	How many sides does a square have?	Count from 65 to 75.	$13 + 4 = \underline{\quad}$

★ Family Challenge: Explain how you solved your favorite problem this week!

Week 3:

Mon	Tue	Wed	Thu	Fri	Sat	Sun
Write 23 as 2 tens and $\underline{\quad}$ ones.	$12 - 7 = \underline{\quad}$	Draw a rectangle.	What number is 10 more than 34?	$6 + 8 = \underline{\quad}$	What time does your day begin?	Count by 5s to 50.

★ Family Challenge: Explain how you solved your favorite problem this week!

Week 4:

Mon	Tue	Wed	Thu	Fri	Sat	Sun
$15 - 6 = \underline{\quad}$	Compare: 18 $\underline{\quad}$ 21 $<, =, >$	Name a sphere-shaped object.	$10 + 9 = \underline{\quad}$	What number comes after 49?	$7 + 7 = \underline{\quad}$	$14 - 8 = \underline{\quad}$

★ Family Challenge: Explain how you solved your favorite problem this week!

Week 5:

Mon	Tue	Wed	Thu	Fri	Sat	Sun
Count from 80 to 90.	Write the number word for 32.	How many tens are in 40?	$8 + 4 = \underline{\quad}$	$17 - 9 = \underline{\quad}$	Draw a circle and a square.	Count by 2s to 20.

★ Family Challenge: Explain how you solved your favorite problem this week!

Week 6:

Mon	Tue	Wed	Thu	Fri	Sat	Sun
What number is 1 less than 50?	$11 + 5 = \underline{\quad}$	$13 - 4 = \underline{\quad}$	Find something longer than your foot.	Compare: $27 \underline{\quad} 25$ <, =, >	$9 + 8 = \underline{\quad}$	Count from 90 to 100.

★ Family Challenge: Explain how you solved your favorite problem this week!

Week 7:

Mon	Tue	Wed	Thu	Fri	Sat	Sun
$16 - 7 = \underline{\quad}$	How many vertices does a rectangle have?	Write 54 as $\underline{\quad}$ tens and $\underline{\quad}$ ones.	$6 + 6 = \underline{\quad}$	$18 - 10 = \underline{\quad}$	Count by 10s to 120.	Name a cube-shaped object.

★ Family Challenge: Explain how you solved your favorite problem this week!

Week 8:

Mon	Tue	Wed	Thu	Fri	Sat	Sun
$10 + 7 = \underline{\quad}$	What number comes before 70?	$15 - 8 = \underline{\quad}$	Draw a hexagon.	Count from 12 to 22.	Write the number word for 47.	$14 + 5 = \underline{\quad}$

★ Family Challenge: Explain how you solved your favorite problem this week!

This calendar is for students who have finished grade 1 and will be entering grade 2 in the fall.
