

FBLA

The Future Business Leaders of America (FBLA) club at Wellesley High School offers students the opportunity to develop essential leadership, business, and entrepreneurial skills in a collaborative environment. Through engaging workshops, competitions, and community service projects, members gain hands-on experience in business practices, networking, and public speaking. The club encourages personal growth, teamwork, and a strong work ethic while fostering a passion for business and leadership. Students also have the chance to participate in regional, state, and national conferences, competing in a variety of events that challenge their knowledge and problem-solving abilities.
