

A format I've been having great success with. Just copy and paste and fill out. Can be tweaked for Ex3, but I'm still using 2/2.5.

Backgrounds:

- Class 3 (Free)
 - Your character is either a foreman of the Populat, responsible for overseeing an entire factory, a junior member of the Tripartite (and thus also require Backing at 1–2 dots) or a young or notably disruptive Alchemical. She enjoys a standard of

living equal to Resources •••, with a small staff of personal aides (ostensibly for professional use only). Your Character's rank allows her to requisition goods and services valued at Resources ••••, but she might need to justify such requisitions to her superiors. Foremen live in suites housing six peers, while the most junior members of the Tripartite pair up in sparse but spacious apartments. Slightly more experienced Tripartite members and all Alchemical Exalts have small private domiciles befitting their importance. Your character receives a situational bonus die to all social rolls when interacting with characters of lower Class.
