

Updates from January 19, 2018

- Installing and configuring Atlas on Hadoop has impala issues like String to varchar and resolved. Other fixes in progress.
- All the code is checked in to Github
- Achilles stats are visible
- Synpuf has been updated to 5.3 – Wil
- Atlas Broadsea docker install info: <https://github.com/OHDSI/Broadsea>
- Need to ENV for hadoop/impala to test the new version of Atlas with large volume of data.
- IQVIA – Either Atlas or Achilles on Impala yet. Achilles planned for later Q1 and Atlas most likely Q3/Q4
- Case Western – Not looking at Atlas at this time. Looking their Genomic platform – Not looking on Hadoop and Atlas yet. Goal is to see how that integrate with OMOP.
