

Problem Solving Rubric
(PoG: Critical and Creative Problem Solving)

Criteria	25 - Mastery	21.25 - Proficient	18.75- Progressing	16.25 - Developing	10- Non Scorable
Problem	There is evidence indicating a thorough understanding of the problem.	There is evidence indicating an adequate understanding of the problem.	There is evidence indicating an insufficient understanding of the problem.	The evidence indicates a lack of understanding of the problem.	There is no evidence present.
Planning	There is evidence of thorough reasoning to develop a plan	There is evidence of adequate reasoning to develop a plan	There is evidence of insufficient reasoning to develop a plan	There is no evidence of reasoning to develop a plan	There is no plan present.
Product	The end product thoroughly addresses the defined problem.	The end product adequately addresses the defined problem.	The end product insufficiently addresses the defined problem.	The end product does not address the defined problem.	No end product present
Reflection	There is evidence of thorough reflection on the end product and the process.	There is evidence of adequate reflection on the end product and the process.	There is evidence of insufficient reflection on the end product and the process.	There is a lack of evidence of reflection.	No reflection present
