Free COVID Testing:

Community COVID-19 testing sites are being held throughout San Bernardino County. Samples will be collected using a swab in the nostril or in the mouth. These samples are then sent to a lab to test for the virus that causes COVID-19 (SARS-CoV-2 virus). There are 3 commonly used testing options:

Option #1: San Bernardino County Public Health Testing Facilities:

[Click Here](#) to make a free testing appointment

- You can easily make an appointment on your computer or phone!
- Walk-ins are also welcome!
- You do NOT need to have symptoms to test!
- You get texted/emailed the results in under 48 hours!

Option #3: Consult your doctor for other testing options.

Flu Vaccine:

The California Department of Public Health strongly recommends that all students and staff be immunized each autumn against influenza, to help:

1. Protect the school community
2. Reduce demands on health care facilities
3. Decrease illnesses that cannot be readily distinguished from COVID19 and would therefore trigger extensive measures from the school and public health authorities.
