

The Title Of The Paper Should be Written Here And The Length Should Be Maximum Two Lines

First Author¹, Second Author^{2*}, Third Author^{3*}, and Fourth Author⁴
correspondence@email.com

*¹, First Author Affiliation, address;
², Second Author Affiliation, address;
³, Third Author Affiliation, address;
⁴, Fourth Author Affiliation, address

Abstract. The abstract needs to summarize the content of the paper. The abstract should contain at least 70 and at most 150 words. Font size should be set in 9-point and should contain description about purpose, methodology, result, and originality.

Keywords: Include at least 5 keywords or phrases

1 INTRODUCTION

This template provides all the necessary information to the author regarding the formatting specifications needed for preparing electronic versions of their papers. We ask you to make your manuscript look exactly like this document. The easiest ways to do this is simply downloading the template, and replace (copy-paste) the content with your own material. All manuscripts must be in English. This document includes complete descriptions of the fonts, spacing, and related information for producing your proceedings manuscripts.

Margins, column widths, line spacing, and type styles are built-in; examples of the type styles are provided throughout this document and are identified in italic type, within parentheses, following the example. Please do not re-adjust the margins.

Maximum numbers of manuscript pages are 15 pages.

2 LITERATURE REVIEW AND HYPOTHESIS DEVELOPMENT

The main text should be written using Times New Roman, 10pt, fully justified. Italics can be used for emphasis and bold typeset should be avoided

2.1 Headings, tables and figures

Headings. Please follow the formatting instructions for headings given in Table 1.

Tables. All included tables must be referred to in the main text and the table title and caption are to be positioned above the table. The captions need to be written in Times New Roman, 9pt.

Table 1. Table title. Table captions should always be positioned *above* the tables.

Heading level	Example	Font size and style
Title (centered)	Core	16 point, bold
1 st -level heading	1 1st level	12 point, bold
2 nd -level heading	1.1 2nd level	10 point, bold
3 rd -level heading	Headings. Text follows ...	10 point, bold
4 th -level heading	<i>Remark.</i> Text follows ...	10 point, italic

3 RESEARCH METHODS

Figures. Figures need to be inserted separately as a .jpg or .png file and must be referred to in the text, for an example see Figure 1. [1] Figure descriptions should be placed below the figure and written in Times New Roman, 9pt.

Fig. 1. Architecture of a typical wireless sensor node.

3.1 Equations, formulas and code

Equations and formulas. All equations and formulas should be referred to in the text using consecutive numbers in parentheses, see equation (1) for an example. Displayed equations or formulas should be centered and set on a separate line with an extra space above and below. They should be numbered for reference and the numbers should be consecutive, with numbers enclosed in parentheses and set on the right margin.

$$a + b = c . \quad (1)$$

Equations and formulas should be punctuated in the same way as ordinary text but with a space before the punctuation mark. Code. Program listings or commands in the text are set in typewriter font (CMTT10 or Courier) and referred to in the text.

4 RESULTS AND DISCUSSION

4.1 Citations and references

Citations. For citations in the text use consecutive numbers in square brackets: [1], [2], [3], etc.

References. All references must be in the same format as the ones at the end of this document and the reference list must include all cited literature.

4.2 acknowledgements

Acknowledgments. The heading should be treated as a 3rd level heading and should not be assigned a number. Intellectual Capital

5 CONCLUSION

Reference

Reference has been written in Vancouver style using reference application (endnote/mendeley/zotero/reffwork)
