

The Climate Crisis and How Students Can More Fully Engage Climate Issues

Thursday and Friday, December 11-12, from 3 to 5 pm
In the Green University Library

Refreshments and conversations following the event.

Registration is requested if you are “interested” or “going”: <https://forms.gle/mxQ54aafHbnFYZTN7>

Presented by Dr. John Capece, Director of:

- Campus Climate Corps (CCC), a project sending students to the UN climate conferences
- Alpha Epsilon Lambda (AEL), the U.S. national honor society of graduate school students
- Intelligentsia International, Inc. (III) a Florida-based student exchange organization

The presentations and question & answer sessions will include:

- Evolution of the climate crisis over the past 45 years and the next 45 years (your careers)
- How the UNFCCC attempts to address the climate crisis
- UN COP30 in Belem, Brazil (Nov 10-22, 2025)
- UN COP31 in Antalya, Turkiye (Nov/Dec, 2026)
- The key role of Ecological Economics in climate action
- AI - a potential climate solution, another grave risk, or both
- What the data say about population and consumption growth in the climate crisis
- The role of students and student organizations in confronting the climate crisis
- Proposed AEL internship office at the Green University
- Establishing chapters of CCC and AEL at the Green University
- Potential joint research projects on climate and other environmental topics
- Green University faculty panel
- Green University student panel
- Green University partner groups efforts to address the climate crisis.
