

Heya!! This doc's gonna provide some **more** info 'bout my Twitter muses!  
...Too nervous to tweet them out [read: my headcanons] so I've resorted to this,,,

**Wiki page links first 'cause I ain't gonna recite all that basic info bro, like who do you think I am??? I may be an idiot but I'm not stupid [SHOT] HGJHJG:**

[Marshmallow](#) | [Lamb Spine Hotpot](#) | [Takowasa](#) | [Kitsune Udon](#)  
[Mont Blanc](#) | [Laba Noodles](#) | [Mixed Fish Soup](#)

**Also gonna update this doc as I go but y'know,,, respect what you have currently**

## **Marshmallow [@Dainty8Sweet]**

**old HCs I had when I first started rpin' as her:**

- >Spends as much time outside as inside her constantly mentioned candy cottage/house
- >>Which is made of marshmallows,,, yes this is 200% canon actually
- >She may be only 155cm tall but her capability of flight makes up for it
- >Likes to watch the clouds as a hobby so she doesn't get bored of doin' nothing at all
- >Interacts with any 'n everyone, no matter who they might be,, y'all know what that means
- >Hates warmer temperatures + fire of course with a passion 'n will speak up about it
- >Pretty naive,, hence her personality trait;; be wary of her sudden horde of questions

**current HCs, some are to debunk/revisit the old ones:**

- ❖ Small but uses big words,,, Twitt character limit becomes a serious enemy ghjhjg
- ❖ Detective on the job 24/7, memory sharp as ever
- ❖ Knows so much but also oh so little, impossible to tell if she plays dumb or not
- ❖ Genuinely expresses her feelings no matter who she's talkin' to

## **Lamb Spine [@Huddled\_in\_Ice]**

**His @ has more to do with his withdrawn, dare I say introverted nature rather than his namesake food's makin' or what,,, especially since his full name is Lamb Spine Hotpot-- but since he apparently comes from a cold place, his home, I guess it's 50/50**

- ❑ Tries to keep his hands busy when wanting to reply quickly but isn't able to find the words he'd like to use right away in order to stay calm [ex.: fidgeting, rubbing his thumb against the rest of his fingers or his other thumb, touching his mask]
- ❑ The dish is from China so as a bilingual myself I'd say that plays into the struggle of not bein' able to say what you want on the spot since you either know what you want to say but can't remember the word in english or can't find the right word, only the synonym of it,,, which might slightly differ in meaning so like it's a struggle either way
- ❑ His mask is probably a comfort item[?], only takes it off if someone close to him asks him to/spending alone time with the wolves that follow him
- ❑ All thoughts, little to no words
- ❑ His smile is a rare sight, if you've seen it probably no one will believe you
- ❑ Havin' problems with socializing Lamb Spine 🍷 me
- ❑ Likes to keep his distance
- ❑ Not used to being in the spotlight
- ❑ Animals soft 'n warm, world cold hard
- ❑ Most likely to find comfort within the presence of animals, which is why he could be seen accompanying them whenever it's possible

- ❑ **nOW THAT I have read his backstory I'll just [Cracks hands]**
- ❑ He stims??? He stims
- ❑ Rocking back 'n forth, needing to have his hands preoccupied/biting his lip when nervous, holding/petting the wolves/wolf pups,,, y'know all that stuff
- ❑ @the smile thing,, it's practically canon that it's quite hard for him to do that- I mean?? he was sealed away for WHO KNOWS HOW LONG??? so it makes sense!!
- ❑ Also basically canon but he is a literal puppy 'n I'm gonna cry brb

## **Takowasa [@ConcealedVigour]**

**While hintin' at how his bio says Takowasa wasn't aware of his power until he had to make a move,, it also plays on the fact that he likes to sleep in his pot, hiding him**

- Doesn't care much about how others view him
- Speaks formally 'n casually, switches it up here 'n there
- Deems himself to be a 'monster'
- Horrifyingly calm 'n collected
- Loves wine
- Not much of a talker, but only does so when he deems a response is needed
- Indifferent about humans, doesn't hate nor like them,, they exist 'n that's it
- Views occurrences just like humans, it happened,, he watches like a bystander
- Seems pretty cold, but could he be gentle on the inside? Like Wakame said?
- Probably uses his other arms to hold things, I mean,,, have you seen his nails???
- The only exception his wine, of course and your hand

## **Kitsune Udon [@puerileparoxysm]**

**Previously my Cat!Boston Lobster acc but I flipped it aaaa**

**also unrelated-ish- I like to imagine the Ps being Kitsu's lil shoes 'n the Y being his tail**

- Grumpy MCfluffbutt otherwise very loving on the inside,, [read: tsundere]
- Inarizushi is his everything and adores them greatly
- LOUD!!! I'm sorry for your muse[s]' ears in advance
- Has a soft spot for kids and animals [foxes, mostly]
- Can be bribed with food... . . . preferably abura-age/cappuccino
- Do not touch!!! Okay you may pet him, once[1].....Better make it count jhjh
- Will peak at what you're doing 'cause of his childish curiosity
- The night time probably unsettles him, hence being in darkness for so long...

## **Mont Blanc [@Tranquil\_Charm]**

- Already said this on twitt yet that won't stop me,,, no thoughts only Brioche
- Not sure why but I can see him having a plushie collection??? or at least a few,,, bonus points if Brioche got them for him hggggn

## **Laba Noodles [@Benign\_Amuletum]**

**[Coming soon, my brain fuzzy hhhh]**

## **Mixed Fish Soup [@lackadaisiical]**

- Quiet, more of a listener type
- Blames himself for his master attendant's death
