Dear (contact name)

Glastonbury we love you! Since 2019, Extinction Rebellion has brought a vibrant and inspiring presence to the festival. Thank you for being such amazing collaborators.

In 2025, we aim to debut our new festival concept at Glastonbury, making it our most impactful year yet.

Read our attached proposal pdf for full info.

Our proposal includes a new marquee space: The Last Chance ~~Saloon~~ Salon, offering climate action treatments, eco-makeovers, climate oracle tea leaf readings and more...

Dirty Scrubbers and Oom Pah Pah Band offer two new entertaining and informative satirical walkabout shows targeting Greenwashing and Greed, to the tune of "Working at the Carwash (Greenwash)".

We believe Glastonbury is the perfect place to inspire positive change and work towards a healthier planet. We look forward to discussing this further and making 2025 unforgettable.

Love and rage,

-Kimani Spell, he/him, (your name), XR Festivals Team
