OODA LOOP:

Observe:

What is my outcome?

I want to crush it for my starter warm outreach client

What is my situation?

I'm currently growing their fb page attention organically

We are at 371 follows

I never analyzed their business or top players or even got them a winning strategy

I finish a discovery project of growing them to 200 follows

Now I'm just continuing

I produced my client 0 money

But 200 follows

I'm growing their fb page attention orgnacily using the content planner fb page schedule

My problem in analyzing top players and setting a project is that I forget copywriting

I don't know anything except video editing

And there is no way I'll analysis top players if I don't know copywriting

Orient: what is my next step moving forward?

1- Follow the beginner live calls

Decide: the plan

- 1- follow the beginner live calls
- 2- get them a winning strategy
- 3- crush it for them

Act: planned in the conquest planner already

So why are we still growing their fb page using the content planner?

Following the beginner live calls will take a significant amount of time if I placed it before my client work and I will have to give up on my checklist or stay awake for 2 weeks or so to finish the calls

Does growing their follows lead me to my outcome?

Yes they have a problem in attention and it does lead us to our outcome and does provide value but it works slowly rather than just analyzing top players + it isn't the right path

So what is my next steps?

- 1- use the content planner in client work checklist
- 2- follow the beginner live calls
- 3- get them a winning strategy
- 4- crush it for them

NOW let's analyze our work:

What is my objective: I want to grow my client followers in fb

What is my situation/where am I/ what did I do?,etc

One of our videos blowed up to 50-60 likes and we gained an extra 50 follows in a day

Biggest difference in this video from my other video is that it asks the followers a question at the end to answer,

It has a title placed in the thumbnails that says "answer these questions to know if you love yourself or not" "Do this to know this curiosity play and might threaten people as well for the "or not" the title of the video says "10 questions to answer to know if you love yourself or not"

Today I posted one of thier quotes they sent me

I posted a video with animations and title of the top player in thumbnail to test if that's it

Orient: what is my next steps moving forward

- you can;t assume every video you take and edit will have a question at the end
- having titles in thumbails matched with curiosity to an action is effective
- evaluate tomorrow however you can use a curiosity play in the thumbnails that direct to an action then use the top player title in the title section on fb

Decide: make a clear plan:

1- test asking the viewer a text type of question at the end

2- use action type curiosity players in the thumbnails: do this "wanted action" to discover this thing

3- use the original title of the video in your edited video

Act: tomorrow

SESSION #2 - 2:30 PM - 3:30 PM

Desired Outcome:

- Objective: review and refine your conquest planner according to feedback

Planned Tasks:

- respond to your sent feedback messages in TRW
- respond to your sent feedback message on the conquest planner
- refine your conquest plan accordingly till it is an effective plan to your goal

Post-session Reflection

- Notes: PUT A SIGN AT YOUR ROOM FOR G SESSION TO NOT GET INTERRUPTED OR SENT MESSAGE OR JUST GO TO A COFFEE SHOP SENSE MORNING

OODA LOOP:

What is my outcome?

- I wanted to make a strong conquest planner

Where am I?

- After I reviewed and refine my planner till it is working
- I sent it for feedback

- Ogniject soldier of jesus said it is good and offered the opportunity to ask him any questions
- The guy said basic stuff I planned for like "do top player analysis" "watch the beginner calls"
- He said some other important stuff like "do the calendar G" "add a checkpoint for making your client 10,000k per month"
- I didn't do the calendar because I've already decided on that and I already got feedback from two other people and that is enough
- I changed the goal of crush it for your client to make your client 25,000k per month
- I made this goal based on 2 projects 1- generating them 10,000k per month 2- generating them 25,000k per month 3- get 2,500 k from them
- I made my last checkpoint which is duplicate over multiple clients have task 3: generate each of them 25,000k, task 4: make 2,500 from each
- I originally intended to do the session in a 1:30 hour deadline but instead changed it to 1 hour and I turned focus
- The internet had cut out again asking me to enter the password, I sent the pass for myself
- As I looked through the plan I felt that it isn't detailed enough
- Or not planned enough
- I realized that if I finished the beginner live calls I'm going to know a lot but it will be hard to apply all info to the plan

Orient:

- Don't overstress ognijen message only ask questions if you have them, if you're scared of having a question but not knowing it then just wait for your brain to discover it
- Make the deadlines harsher
- Use your password sent in message
- You need to review and refine it and make it detailed again in the morning or something in a 1 hour G session
- Review your notes after the beginner live calls then based on memory rely on yourself to refine your planned accordingly

Deicide: make a plan

0- make the deadlines not maxed set them enough not too broad or too harsh on order to be quick and creative

- 1- review your notes at each day morning instead of 10 min copy analysis
- 2- go into a 1 hour G session and review and refine your plans

ACT: REVIEW
