A Guide to Purchasing Authentic Art from Redd

## ARTWORK IN *ANIMAL CROSSING: NEW HORIZONS*

As of version 1.2.0 of *Animal Crossing: New Horizons*, Crazy Redd has made his return from his tent in previous *Animal Crossing* games to the shores of players' islands. Redd carries artwork and furniture on his boat, "Jolly Redd's Treasure Trawler," which docks on the shore of the secret beach. The secret beach can be located behind the cliffs on the north end of players' island. When Redd visits players' islands, he will carry four pieces of art and two pieces of furniture on his boat. Of the four pieces of art on display, only one can be purchased daily. Once the purchase has been made, players' will receive the item in the mail the following day.

In the Version 2.0 update, Redd has set up shop on Harv's Island. Players must speak to Lloid and donate 100,000 Bells to the gyroid constructing the shop for the "legitimate art dealer." The following day after the donation has been made, players can visit Harv's Island to purchase one of two artworks. When Redd is at the shop, he will carry two artworks, only one of which can be purchased daily. Redd will not be at the shop if he is visiting your island.

Like in past games, Redd will sell genuine and forged artwork. When visiting your island, Redd will sell one authentic work of art of the four works of art available for purchase. However, it is possible that all four items are forged, or more than one item is authentic. This also applies to artwork sold at Redd's shop. Of the two works of art available for purchase, it is possible that both items are either forged or authentic. Genuine artwork can be donated to the Museum. Forged art cannot be donated to the Museum, nor sold to Timmy and Tommy at Nook's Cranny. They must be disposed of using furniture that can dispose of trash, displayed anywhere on the island, or displayed within players' homes.

This unofficial guide will help players distinguish between authentic and forged works of art in *Animal Crossing: New Horizons*<sup>1</sup>. Each forgery will have at least one visible distinction from the genuine work of art. There are a total of 43 works of art to find and donate to the Museum. All 43 artworks are based on real world paintings and sculptures. Below is the alphabetized list of artwork Redd sells, the real life artwork each item in the game is based on, and the difference(s) between the real and fake works of art in game.

---

<sup>1</sup> Please note, the differences between authentic and forged works of art are not the same as they were in *Animal Crossing: New Leaf*.
