Idea from another niche

Hello Tony, I liked your recent videos with different influencers and also the new product.

This is showing a really big interest in constant evolution and development of new ideas.

For seeing a lot of determination and consistency, I was thinking that idea I saw at **Personalized Nutrition/Support**, is bringing a lot of audience for <https://flexletic.com/>

It would **like to** represent a zero-risk strategy that will bring a great start in getting the attention of your target market and also growing the sales for <https://mriron.ro/product/choco-bombs-33-protein/>

If you are interested, let me know!

Looking for a partner in the X niche

Hi Tony, I liked your recent ads for your new product, high-quality content combined with collaboration with diverse influencers is representing a huge advantage for gaining the attention of your audience.

I found the quickest strategy in **Personalized Nutrition/Support** to increase your audience which is working tremendously in every industry and sub-industry that I've seen it testing in.

With all of these, an insignificant number of people use this idea.

I am looking for Nutrition Products Brand to partner with to run this new strategy to increase your audience.

In addition, with this strategy, the person I will choose to implement this idea with will, most likely see a considerable increase in customers in an interval of 25-50 days

At the moment I'm considering <https://flexletic.com/> and <https://slabestecuoana.ro/> but I wanted to consider you given your consistent hard work and rapid development.

Do you have the ability to support a large number of clients from your target market in the next 30-35 days?
