

Foundations of Advanced Aesthetics Hands On
July 18, 2026
Brea, California

Activity Overview

The learners will first do an in-depth review on the pre-requisite Foundations of Advanced Aesthetics didactic online enduring activity completed prior to attending hands on class. This course helps you gain an in-depth understanding of the many different types of FDA-approved injectables, where to best utilize each one, what complications may arise, and complication management. You will learn injection techniques, how to properly assess your patients as it relates to the aging process, and how to choose the best product.

Target Audience

This activity is designed for an audience of Physicians, Dentists, Nurse Practitioners, Physician Assistants, and Registered Nurses

Learning Objectives

Upon completion of the educational activity, participants should be able to:

- Demonstrate proficient injection techniques for neuromodulators
- Exhibit proper injection techniques for dermal fillers
- Articulate a comprehensive understanding of facial aging and the appropriate application of dermal fillers for rejuvenation
- Express comprehension of muscle origins relevant to neurotoxin injections and their potential outcomes

Please claim your credit within two weeks of your activity date.
