Operations Meeting January 14, 2019

Attendees:

Announcements

- Face to Face UCSD meeting:
    - Jeff working on getting schedule up, having indico login issues
- Next week Mon 21st is MLK day, we agreed to have next meeting Tues Jan 22nd same time 1:00 pm Central

Fires

Nebraska (Derek, Marian, John)

- **News**
    - Marian is taking vacation Wed, Jan 16-18 (and possibly also Jan 21)
- **OASIS**
    - No Ops news
    - still work in progress on new hcc-cvmfs-itb-test -- will replace currently “borrowed” hcc-cvmfs-itb from different (CMS) project
- **XCache**
    - No Ops news

Madison (Brian Lin, Mat Selmeci)

- Topology
    - Pushed updates to support auto-generation of Stash Cache/Origin Authfiles for XCache 1.0
    - Pull request submitted for auto-merge of downtime updates by admins registered with the resource in question
    - Created tickets for UCSD downtime form feedback (multiple downtime generation, UTC field, feedback link)
- GRACC/Gratia probe
    - There’s an issue with the gratia-probe affecting all pilot records from hosted CEs

    - This has been fixed in the source and we plan on testing it this week on a hosted CE
    - Tickets were created to alert on the GRACC side and fix the broken records
- TimC sorted out the osgstorage.org registration renewal with GoDaddy
- BrianL discussed doc organization in the OSG with TimC. Tim suggested that this should be decided per-area, owned by the area coordinator

Chicago

Shawn

Jeff

Factory

- Revived factory script that parses Topology downtimes and automatically stops glidein submission to sites in downtime
