Abstract

Abstracts should be no more than 500 words and not exceed two pages, including images and references. The abstract should clearly describe the scope of the proposed paper or poster. It should also contain enough information for the reviewers to make an informed decision.

The abstracts are to be submitted in electronic form suitable for reproduction on 8½ x 11 inches paper with 1" margins. Text is to be typed in 11-point Times New Roman font.

Figures may be included and their captions will not form part of the word count. If graphics or figures are included, place the figure caption *after* the figure using 10-point Times New Roman; both figures and captions should be centered. Additionally, if a reference section is included it will not count against word maximum.
