## WORK EXPERIENCE

---

### Emerson Electric Inc.

February 2023 – March 2025

#### Software Developer

- Maintained and enhanced product maintenance and lifetime support platform, including its website, database, and in-house CRM system.
- Developed both the front-end and back-end of the platform, along with appropriate testing, documentation, and best practices.
- Designed and implemented a modernized website to eventually replace the legacy platform, along with implementing modern software development standards such as unit testing and responsive design.
- Engaged with stakeholders about improvements and features to introduce to existing and future platforms.

### Caslo Marketing Agency

May 2025 – Present

#### Web Developer

- Built and maintained multiple client websites using Wordpress and Webflow in a fast-paced environment.
- Worked with and debugged more technical aspects of websites such as SEO optimization, external plugin integration, and responsiveness.
- Ensured long-term maintainability by introducing the Client First design system and other design patterns to websites.
- Created and designed a website template system, allowing customers to easily buy and customize their own sites on wordpress.

## KEY PROJECTS

---

### Molded Fiber Technology Website ([moldedfiber.com](http://moldedfiber.com))

March 2025 - April 2025

- Created a website for client in packaging industry using Wordpress Elementor and related plugins.
- Worked with and collaborated with peers in a small marketing agency to deliver the product.
- Worked on end-to-end design and development, along with informing client on technical aspects and possible additional plugin costs.

### Aftermarket Redesign

February 2024 – April 2024

- Personal case study and redesign of the *Aftermarket.ph* premium goods reselling website with the aim of following modern design standards and best practices.
- Researched possible competitors and created user personas, journeys, and flows that cover the perspective of both the buyer and the seller.
- Created mockups and usable responsive prototypes for both mobile and desktop screens.
- Included a usable design system with responsive elements and components.

## EDUCATION

---
