

Crandall Agriscience Department and FFA Handbook 2024-2025

Welcome!

Dear Crandall Students and Parents,

Welcome to the 2024-2025 school year of Crandall FFA.

The following pages are filled with information about the Crandall FFA Program.

The Crandall Agriscience Department is continually active in many areas of FFA. We look forward to each of you attending the wide range of activities and meetings available to you and helping us continue to excel in all aspects of FFA.

We are here to offer the students guidance and support throughout the year. We also have a highly trained and knowledgeable student FFA officer team. We ask that any questions or concerns be directed through a chain of command. If the chain of command is not followed it may result in the dismissal of the organization.

1st – Student FFA Officers
2nd – Agriscience Teachers

Program Description

The agriscience program is much more than a class. Classroom instruction gives students the knowledge and skills they need for success in today's world, and students get a chance to practice and apply this knowledge and these skills in their Supervised Agricultural Experience Projects (SAE's) and through the National FFA Organization. When the three parts are properly integrated, students' education is maximized.

SAE's are tracked and documented in AET.com to allow students to gain awards and help them build a resume.

Crandall Agriscience Department strives for a well-rounded program that works to uphold all three pieces of the Agriscience Program Model.

FFA

FFA makes a positive difference in the lives of students by developing their potential for premier leadership, personal growth, and career success through agricultural education.

FFA Official Dress

The uniform worn by FFA members at local, district, area, state, and national functions is official dress. It proves identity and a distinctive, recognizable image to the organization.
