Log

12:00 PM <[dsnopek](#)> Hi Everyone! Who all is here for the meeting?

12:00 PM <[dsnopek](#)> Here is the agenda/notes document:

<https://docs.google.com/document/d/1ddxs9bRklUebVpR34vu4eQbMhVRDsncbWdWg1LozJ0/edit?usp=sharing>

12:00 PM <[EclipseGc](#)> dsnopek: sup

12:00 PM <[EclipseGc](#)> :-)

12:00 PM — [EclipseGc](#) is happy, he thinks the IPE js issue is fixed

12:00 PM <[dsnopek](#)> EclipseGc: Ah, sweet!

12:01 PM <[EclipseGc](#)> dsnopek: I'm pretty happy about it :-D

12:02 PM <[dsnopek](#)> timplunkettAFK: meeting?

12:02 PM <[dsnopek](#)> Duplicon: seen japerry?

12:02 PM <[Duplicon](#)> japerry was last seen in [#drupal-scotch](#) 3 days 20 hours ago saying 'EclipseGc:
https://plus.google.com/hangouts/_/g4le6gpulwhxlv5g5f6f2a7nma?authuser=1&hl=en'.

12:04 PM <[dsnopek](#)> Hrm. Looks like we're the only folks around for now... Let's wait 5-10 minutes and see if anyone shows up before calling it off

12:05 PM <[dsnopek](#)> Which actually would be fine with me, since I have so little time today, I'm actually planning to eat my lunch while having the meeting :-)

12:05 PM <[EclipseGc](#)> dsnopek: works for me

12:05 PM <[EclipseGc](#)> dsnopek: maybe you get to just "eat your lunch"

12:05 PM <[EclipseGc](#)> :-)

12:05 PM <[dsnopek](#)> Heh, yeah :-)

12:05 PM → [japerry](#) joined

12:06 PM <[japerry](#)> hihi

12:06 PM <[japerry](#)> sorry I'm late!

12:06 PM <[dsnopek](#)> japerry: Hey!

12:07 PM <[dsnopek](#)> Ok, so, I guess 3 people is enough to be a meeting :-)

12:07 PM <[japerry](#)> haha who else is here?

12:07 PM <[EclipseGc](#)> dsnopek: which is to say, no movement on D8 from my end

12:07 PM <[EclipseGc](#)> dsnopek: just us

12:08 PM <[japerry](#)> cool. EclipseGc++ ! that wizard worked great :-)

12:08 PM <[japerry](#)> dsnopek: any word yet on project submissions?

12:08 PM <[dsnopek](#)> EclipseGc: Cool. Sounds like your Panels/Panelizer/Workbench stuff is coming to close, though, which may open up time for #2377757?

12:08 PM <[EclipseGc](#)> japerry: awesome, I didn't hear back from you and then I saw the tweet, so I assumed it had been an easier road :-D

12:08 PM <[dsnopek](#)> japerry: I haven't heard anything, but I haven't talked with the GSoC admins in awhile

12:09 PM <[dsnopek](#)> japerry: Would you mind pingng them at some point and asking them for an update?

12:09 PM <[EclipseGc](#)> dsnopek: one can hope. My work is actually updating all of lightning, I was just focussed on that area first given my own expertise and leanings. I actually have a client who I need to start testing their upgrade path against this stuff

12:09 PM <[japerry](#)> EclipseGc: did you get any further after our talk?

12:09 PM <[japerry](#)> was it JS related?

12:10 PM <[EclipseGc](#)> dsnopek: so... probably not, but this project is nearing an end, and perhaps I can get time allotted after the project is over

12:10 PM <[EclipseGc](#)> japerry: <https://www.drupal.org/node/2462331#comment-9778921>

12:10 PM <[Duplicon](#)> <https://www.drupal.org/node/2462331> => IPE Insufficient for Panelizer [#2462331] => 4 comments, 6 IRC mentions

12:10 PM <[dsnopek](#)> Man, I wish someone had time to hack on #2377757, because I'd really love for that to get in before we can't anymore...

12:11 PM <[japerry](#)> EclipseGc: thanks! heh thats going to block on [drupal.org](#) as well

12:11 PM <[EclipseGc](#)> dsnopek: yeah I'll try to allot personal time this week and see what I can do

12:11 PM <[EclipseGc](#)> dsnopek: I know the timeline is winding down

12:11 PM <[japerry](#)> ok. we're still a little ways out on panelizer for the content revamp, but this is definitely relevant

12:13 PM <[japerry](#)> hrm dsnopek I wish I had more experience with d8

12:14 PM <[dsnopek](#)> japerry: Heh, no, worries I think this patch is a bit beyond my knowledge as well :-)

12:14 PM <[dsnopek](#)> japerry: Would you have time this week to ping the Drupal GSoC admins about the current status of things?

12:14 PM <[EclipseGc](#)> problem is, alex.pott asked for some stuff I'm unfamiliar with too, so it's a matter of learning new things for all of us :-)

12:15 PM <[japerry](#)> yah, I'll actually poke my PM to see if he can do the checkin

12:15 PM <[dsnopek](#)> japerry: Cool, thanks!

12:15 PM <[dsnopek](#)> EclipseGc: Heh :-)

12:15 PM <[dsnopek](#)> So, returning to the status updates, I have nothing to report in layout_plugin or panels land

12:15 PM <[dsnopek](#)> japerry: Do you have anything?

12:16 PM <[japerry](#)> not really, just working with EclipseGc on the IPE issue

12:16 PM <[dsnopek](#)> japerry: Ok, thanks!

12:16 PM <[EclipseGc](#)> is IPE on the docket of things to upgrade in the gsoc stuff?

12:16 PM ← [lewisnyman](#) quit (~lewisnyma@83-136-248-211.uk-lon1.host.upcloud.com) Ping timeout: 264 seconds

12:16 PM <[dsnopek](#)> EclipseGc: No, it's not on the GSoC project

12:16 PM <[EclipseGc](#)> k

12:17 PM <[EclipseGc](#)> probably a good idea that it's not

12:17 PM <[EclipseGc](#)> heh

12:17 PM <[dsnopek](#)> Cool, well that's all we've got on the agenda!

12:17 PM <[dsnopek](#)> Anyone have anything else you'd like to discuss?

12:19 PM ← [dgmills914](#) left (~Instantbi@2601:d:cc0:3c:141d:d382:a613:1216)

12:21 PM <[dsnopek](#)> Alright, let's call that a meeting!

12:21 PM <[dsnopek](#)> Thanks, guys
