

Since I don't own the (art)books physically (or digitally), I cannot say they're of *good* quality.

If someone wants to send me anything I may not have, email matodoko@proton.me or DM [@notMatodoko](#) on Twitter or [@matodoko](#) on Instagram. I'll get back to you when I can.

Also, the Persona 4 Golden Digital Deluxe artbook is like that. \$25 USD for that shit.

Sources for (art)books

Persona 3 JP: Anna's Archive

[Please message me if you have a digital copy of the English artbook.]

Persona 3 Reload: Extracted off a pirated copy of the artbook exe

[They put DRM on the [artbook](#) and [soundtrack](#). Who the fuck does that?]

Persona 4 Golden Digital Deluxe: Found off a random Google Drive.

It's the same version from the DD version, but just in .cbz

Persona 5 Strikers: Anna's Archive

Persona 4 and Persona 5: archive.org [please support them.]

Persona: The Official Cookbook: Anna's Archive

[It's the eBook version, [the images are not formatted right](#), but the recipes are readable. Also ***please*** support [the author](#) and [your local library if you can](#).]
