

TITLE OF SUBMISSION

Author¹, Corresponding Author^{1,*}, Co-Author²

¹Affiliation 1

²Affiliation 2

*E-mail:

Keywords: (up to 5 keywords)

1. Introduction

This template contains the broad guidelines to assist the preparation of an abstract for UKRRIN SC 2025. The abstract should clearly state the purpose and relevant results of the research, which should fit in with the listed conference topics.

The abstract title should reflect the work and avoid any unnecessary abbreviations. Authors' names and affiliations are to be written immediately after the title. For all the affiliations, a lower-case superscript number should be placed after the authors' names and in front of the addresses. Also, ensure to provide the full postal address of each affiliation and a valid e-mail address of the corresponding author marked by a superscript star. Add keywords immediately after authors' affiliations.

2. Abstract Guidelines

The length of the abstract should be between 500 and 1000 words (references, headings, and captions do not count). Unless indicated during the submission process, all abstracts will be reviewed and considered to give a 15 minute presentation.

All abstracts should feature an introduction, methods, results, and conclusions section.

The deadline for submissions is midnight on the 9th October 2024.

3. References

The preferred reference format is IEEE.
