

State Rights Party Manifesto

Updated: 17/2

Keywords:
Rights, Freedom and Democracy

How we work:

1. We promote and protect the rights and sovereignty of states. We want to expand state power and decentralize national power.
2. We want to establish a model state called [Vinland](#), fulfilling our values of freedom and democracy. This does not mean we're limited to Vinland but we welcome members from all states.
3. On all other topics, we implement party democracy and let our members decide our stance.

Discord server (join the party there):
