BROWN
Division of Biology and Medicine

Sample Job Description
Biology Departments

Name of Position
Department of **Name**
Faculty Rank

Job Description

1. Commensurate with on-campus faculty expectations: 40% teaching, 40% research, 20% administration.
2. After the search is completed the candidate will affiliate with an academic department that is the best fit for his/her research and teaching.
3. Teaching and service responsibilities will be assigned by the department chair, and will be commensurate with the common practices of that department, general expectations for on-campus junior (tenure-track) faculty, and areas of expertise of the candidate.

Requirements

Qualifications include a Ph.D. and/or M.D. degree with relevant postdoctoral research training and a published record of excellence in research ***[minimum requirement]***

Update and change as needed.

Teaching

The applicant should demonstrate a commitment to undergraduate and graduate education.

Teaching will be assigned by the department chair, and will be commensurate with the common practices of that department, general expectations for on-campus junior (tenure-track faculty), and areas of expertise of the candidate.

Research

The applicant will be expected to pursue an independent and externally-funded research program.

Elaborate on the type of research they will be conducting and any other research-related requirements of the position here.

Service Responsibilities

The candidate will be expected to actively participate in all activities of the Division of Biology and Medicine, **Department name**, and the Warren Alpert Medical School of Brown University.

Service responsibilities will be assigned by the department chair.
