

4406 External Program Billing

Effective Date: 7/1/2024 | Last Reviewed: 7/1/2024 | Old Policy Number: F12.10

The College has a policy of Direct Billing for matriculated Stonehill students who participate in approved international or domestic external programs (whether internships or study experiences) that are not provided by the College.

The policy was established to allow the College to implement a comprehensive means of managing student participation in international and domestic external programs, both internships and study experiences. Direct billing enhances the College's ability to control program choice, semester or participation, and impact on housing.

[The Vice President of Finance, or designee, shall maintain and publish procedures in support of this policy.](#)
