

GLOBAL SERVER RULES

These rules apply to **all** users on the FadeCloud Network, regardless of any package or rank purchased from our store.

We highly recommend that each user reads and follows these rules to avoid receiving punishments.

Decisions made by staff are typically final but can be reversed with an appeal if false.

Disclaimers

- Rules can be updated at any time but you will be notified in discord.
- The excuse "I did not know the rules" will not be acceptable, EVER.
- Using loopholes in the rules doesn't grant you immunity to punishments.
- Admins can use discretion to issue punishments for anything that isn't directly specified in the rules if it is seen as malicious to the server.

If you feel that a staff member is abusing their permissions or breaking the rules, directly message Bourney on Discord. Be ready to provide proof!

PUNISHMENTS

Warnings

This is not a major punishment! Only given when a Minor Chat offense is broken. Breaking any Minor Chat rule after will result in a mute though.

Temp Bans/Ban Evasion

While banned, you will not be able to connect to the server. You will have to wait out your punishment. This cannot be reversed unless an appeal is accepted.

Connecting to the server on another account is considered Ban Evasion. All accounts that are linked will be banned for the remainder of the punishment. Constant evasion will result in a blacklist based on severity. This will be discussed by admins.

Perm Mutes

Works the same as a mute but it does not expire unless an appeal is accepted (See Appeals Below)

Perm Bans

These work the same as a temporary ban however it does not expire unless an appeal is accepted (See Appeals Below)

Mutes/Mute Evasion

While muted, you cannot speak in global chat. You are allowed to use other forms of chat/messaging but if you break a chat rule while you are muted then you will be banned for the remainder of the mute.

If you are perm muted and break a rule while muted you will instead be banned for 7 days

Community Removals

This is a 30 day removal from the network due to a history of continuous unwanted behavior that is negatively affecting the community. It is a last warning for a player to change their behavior if they wish to continue playing.

Blacklists

This is a removal from our network entirely. Banned from the discord and in game. You may appeal one year after the punishment.

Appeals

Appeals for any and all punishments have to be submitted within **72 hours** of when they were given regardless of the punishment length. Any punishment can be appealed if you think it's false. This can be done on Discord through our Ticket bot. If you need assistance, you can message any staff member or ask the community.

Perm Mutes - You can appeal to be unmuted after **60 days** of the original punishment.
