- "An old-fashioned barbershop without old-fashioned barbers." - Cher Clark Yoo

"It was our first time there. My son 14 wanted a specific haircut. They took their time to actually listen to us. The end result was absolutely awesome. They were very friendly and treated us like family. We were not a number to them. They cared about what my son wanted. If I could give 10 stars I would. We definitely will be back!! I'm bringing my husband and my other son, this will be our go to barber shop from now on. Wished we could have found them sooner!!!" - Erin May
