Rec stat: Leader/05	a* c n	Record status Corrected or revised New	Indicates relationship of record to a file for file maintenance purposes
Type: Leader/06	z	Type of record Authority data	Indicates the characteristics of and defines the components of the record
Roman: 008/07	c n ■	Romanization scheme Converted to Pinyin Not converted to Pinyin No attempt to code	Indicates the Romanization scheme used in formulating the heading in the 1xx field. LC uses only the fill character to code this position.
Govt agn: 008/28	g i f a s m c l z o u ■	Type of government agency code Not a government agency International intergovernmental Federal/National Autonomous or semi-autonomous component of Malaysia State, provincial, territorial, dependent, etc. Multistate Multilocal Local Other Government agency—type undetermined Unknown if heading is for government agency No attempt to code	If the heading is the name of a body created or controlled by a government, a one-character code denotes the jurisdictional level of the body. LC does not use this character position. LC always uses a fill character
Series: 008/12	a b c n z	Type of series code Monographic series Multipart item Series-like phrase Not applicable Other	Indicates which type of series the heading in the 1xx field represents, if any
Ser num: 008/13	a b c n	Numbered/unnumbered series code Numbered series Unnumbered series Numbering varies Not applicable	Indicates whether a series is numbered, unnumbered, or varies between the two. The code used reflects the series as a whole; if numbering varies, variations are explained in field 640 and/or 641

Upd status: 008/31	a b	Record update in process code Record can be used Record is being updated	Indicates whether a change in any field of the record is underway
Ref status: 008/29	a b n	Reference evaluation code Tracings are consistent with heading Tracings are not necessarily consistent with heading Not applicable	Indicates whether references have been evaluated and whether those references are consistent with the heading. Code <i>b</i> is used when the AACR2 form appears as the established heading (1xx) but the references may not have been re-evaluated in their relationships to the new heading
Auth status: 008/33	a b c d n	Level of establishment code Fully established heading Memorandum (established but not yet used) Provisional Preliminary Not applicable (not an established heading)	Indicates the status of a heading in an authority record
Auth/Ref: 008/09	a b c d e* f* g*	Kind of record code Established heading record Reference record (untraced reference) Reference record (traced reference) Subdivision record Node label record Established heading and subdivision record Reference and subdivision record	Indicates whether the record is an authority record (1xx is an established heading) or a reference record (1xx is not an established heading)
Name: 008/32	a b n	Undifferentiated personal name code Differentiated personal name Undifferentiated personal name Not applicable	Indicates whether, because neither date nor distinguishing terms are available, the same heading is used for more than one person
