

Petition for the Recognition of the Model Weather Underground Organization as a Potential Grouping and Party.

The influential members of the Socialist Party, that is, /u/greatpatrioticwar, /u/ehbrums1 /u/locosherman1, /u/oughton42, and also Those Crazy Reds (who as of right now has just deleted his 6th account) have come together in secret to organize another party in opposition to the liberal parties as well as the Socialist Party.

Why We Denounce the Socialist Party

The perspective members of the Weather Underground recognize that the Socialist Party as a whole, while comprised largely of revolutionary communists, is a neutered organization that strives to install institutional change through ineffective electoral politics. That is to say, they are betraying their values and misrepresenting the American working class, thusly serving as an enemy to the socialist movement.

The Weather Underground and What Separates Us

The Weather Underground will be a party formed from the masses and built on the foundation of scientific revolutionary socialism. This is in opposition to the Democratic Socialist and Anarchist tendencies of the Socialist Party, as the members of the Weather Underground recognize that revolutionary Marxism is the basis for all viable worker action.

We oppose reformism and the focus on bourgeois electoral politics, contrary to the position of the Socialist Party.

The Weather Underground Organization intends to be a grassroots militant socialist organization dedicated to community organization in open revolt against the prevailing political and economic system in the United States of America.

The Weather Underground Organization will be a party built around events such as; protests, riots, revolts, and confrontations with the oppressive institutions in our society. Even though we oppose bourgeois electoral politics as a means for economic change, the WUO will campaign and stand in local areas to spread our message.

The Weather Underground Organization will, alongside these militant acts, work to feed, clothe, shelter, and employ the hungry, naked, homeless, and jobless that this nation has disregarded since its inception.

Ten Point Program of the Weather Underground Organization
