Chapter 1 - Communities

- 1. community: a play where people live, work, and play.
- 2. physical features: different shapes of land and water.
- 3. natural resources: things in nature that are useful to people.
- 4. city: largest kind of community.
- 5. suburb: large, medium-sized, or small community that is near a very large city.
- 6. town: a small community where most people know each other.
