August 8, 2024, Savannah, GA – Vivid-Pix www.vivid-pix.com, a leader in scanning, restoring, and archiving treasured memories, announced today the **Memory Station™ Free Trial version of the popular one-click scanning software that creates stories and restores images from cherished memories**. The trial version lets you restore and create 5 stories from images already on your computer to share with friends and family. Download the free trial at: https://www.vivid-pix.com/memorystation-software/.

Real Story Created with Memory Station Software

Memory Station is a groundbreaking easy, fast, and affordable integrated solution designed to scan, restore, and record audio memories and save multiple photos, documents, and memorabilia.

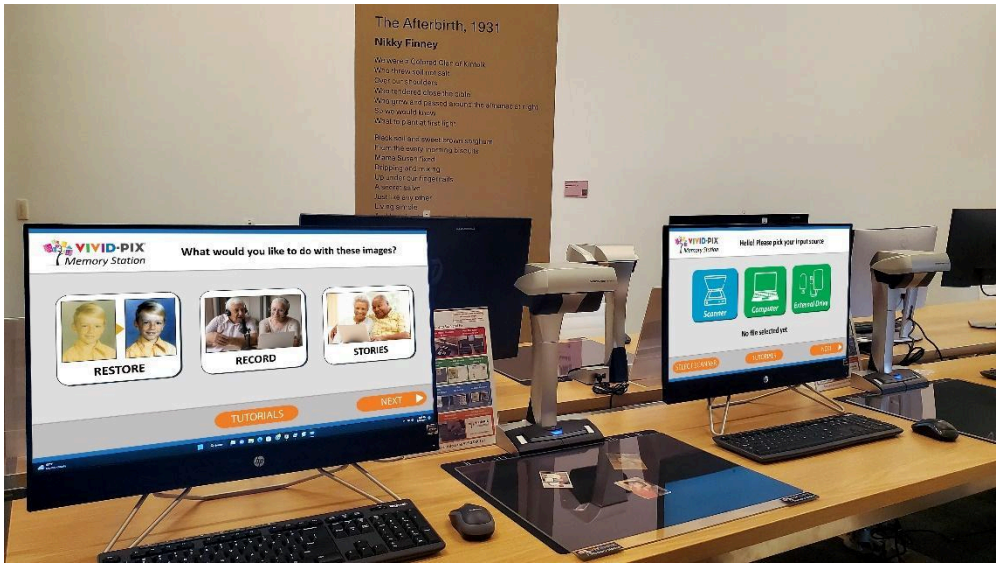

A great gift for older adults and those wishing to preserve irreplaceable memories, Vivid-Pix Memory Station www.memorystation.com is the easiest way to archive and create stories for preservation and sharing online. The Memory Station Bundle includes a lightweight overhead scanner and user-friendly software with extra-large buttons – **designed for seniors and the mobility-challenged, as well as storytellers and genealogists.** Memory Station automatically crops, straightens, and separates up to 10 images at a time, making it fast and simple to archive photos, documents, and keepsakes at once; and its small footprint makes for easy setup anywhere – at home and more.

Memory Station Software Screens

Use the Same Software Used in Libraries, Museums, Historical, Genealogy, and Senior Centers Throughout the U.S.

Vivid-Pix software and solutions are used today in over a thousand libraries, universities, museums, historical and genealogical societies, archives, and senior centers throughout the U.S., including Allen County Public Library Genealogy Center, Brigham Young University Library, International African American Museum, South Carolina Historical Society, Houston County Archives, Tennessee Archives & Museum, Thrive Center, and Cloverwood - Friendly Senior Living. For more info on the Vivid-Pix software, see: https://www.vivid-pix.com/software/ and https://www.vivid-pix.com/memorystation/.
