I am attempting to break out all of the characteristics, aspects and effects (positive and negative of XM). For instance:

- 1) It is associated with certain power spots (portals) which are the ends of wormholes.
- 2) It is known to heighten people's natural abilities.
- 3) It is believed to 'shape the brain (hence the term shapers).
- 4) It is ordered data.
- 5) It is unknown whether XM.

Could you help me with more.

5) cont'd: It is known whether XM is communication, just data or is a hive creature of its own. There are numerous theories.

6) Encourages long term changes in players. Heightened stamina. Weight loss. Increased world awareness.

Is XM itself ordered data, or is it just a "carrier wave", so to speak? It seems to be interchangeable with the data in some

instances, and be separate in others.

What about heightened perception, creativity and precognition?

I am pasting comments from the Operation Essex group in. Feel free to do so.

And Felicia Hajira Lee's precognition along with the screenwriter. I am unable to summon his name.

Greanias might be partly shaped. He also collaborates with Hank Johnson.

From **+Joe Philley**'s reshare:

+James Conklin 3:17 PM1

6) It modifies normal human traffic patterns.

+Michael Edmond 3:21 PM

7) it abnormally affects phone batteries....

+Jason Ball 3:23 PM

8) it can be used to power constructs like XMP's, resonators, and mods.

James Conklin 3:24 PM

9) It comes in it's 'standard' form as well as a 'dark' form, much like all physical matter.

Seems to have positive effects on most and negative effects on a few. It is unknown if this is because of the difference in the person or due to outside agency.

Commentator: I'd say it can carry rather than is ordered data.

XM is a mind bender, it affects all that we do. It opens our mind to the world around us. Forces us to explore things we never would have, travel to places we never knew existed. Changed our course of daily actions and roads traveled. etc etc (Sounds like I've been shaped!

It is also known to have adverse effects. Carrie Campbell, Susanna's mother, and Devra's test subjects who "did bad things. To themselves. And others"

Mike Wissinger

Is a subatomic particle or fundamental property of matter (pending CERN confirmation at least)

Mike Wissinger

Correlated in some exposed subjects with dissociative phenomenon of "whisperers" - inner monologue that can carry

precognitive information (see [+Felicia Hajra-Lee](#))

Appears to be associated with a feeling of euphoria in many subjects

Mike Wissinger

Yesterday 4:47 PM

Possible involvement in human cognition, allowing mind to mind communication under certain circumstances.

I see a lot of comments about the effect on individuals. What about the effect on the collective. I'm sure certain groups or even entire societies have been influenced by XM. Culturally it seems to bring people together.

Essex Chat

Pardon me. I will put in more, but I am actually looking for research help.

Thu, 3:20 PM

oh?

Drew

•

Thu, 3:21 PM

Isn't 4.) Confirmed already?

Thomas Arteaga

•

Thu, 3:21 PM

Just finished 5. Help me with more.

Edgar

•

Thu, 3:21 PM

I think you picked the right place

Nikolas

•

Thu, 3:21 PM

Many are confirmed. I'm attempting to generate a complete list.

Edgar

•

Thu, 3:22 PM

Gotcha

Thomas Arteaga

•

Thu, 3:22 PM

mind if I use the Operation Essex account to spread your research doubts Dr. Wright ?

Hugo

•

Thu, 3:23 PM

No. Spread away.

Edgar

•

Thu, 3:23 PM

Like Jelly on a sammich Hugo

Nikolas

•

Thu, 3:24 PM

I added a few more.

Edgar

•

Thu, 3:24 PM

PBJ time ?

Hugo

•

Thu, 3:24 PM

We can place known effects, suspected effects, anecdotal effects, etc.

Edgar

•

Thu, 3:24 PM

#4 seems inconsistent, depending on the context. Perhaps it's a vocabulary thing?

Daniel Benton

•

Thu, 3:26 PM

By anecdotal effects do you euphoria people seem to report?

Melissa

•

Thu, 3:26 PM

Yes. Put that on the list.

Edgar

•

Thu, 3:26 PM

What about heightened perception, creativity and precognition?

Mustafa

•

Thu, 3:27 PM

Bingo.

Edgar

•

Thu, 3:27 PM

And then there's Tycho's visions....

Mustafa

•

Thu, 3:27 PM

And Felicia Hajira Lee's precognition along with the screenwriter. I am unable to summon his name.

Edgar

•

Thu, 3:28 PM

Thomas Grenias?

Melissa

•

Thu, 3:28 PM

The screenwriter of the Epiphany Night movie?

Mustafa

•

Thu, 3:28 PM

Greanias might be partly shaped. He also collaborates with Hank Johnson.

I have, myself had a dream vision of what happened to Hank Johnson in the cave, but it is best that I not comment on it here.

Who was the screenwriter of the Epiphany Night Movie.

Edgar

•

Thu, 3:29 PM

Andy Nominus.

Mustafa

•

Thu, 3:30 PM

Brilliant... Andy Nominus.

Edgar

•

Thu, 3:30 PM

That's one hell of a nomme de plume

Melissa

•

Thu, 3:30 PM

Hopefully not Alan Smithee.

Jim

•

Thu, 3:30 PM

Correct. I knew a bad screenwriter during my time at UCLA who had a pen name of Noah Ward.

Another one named P-Toeey. (An expectorating sound).

Noah Ward was not a bad screenwriter, but when he felt his stuff was mutilated, he went by that name.

Edgar

•

Thu, 3:32 PM

I wonder if Andy had a similar reason for using that name

Melissa

•

Thu, 3:33 PM

Oooh...I wonder if we can get Any's screenplay back into the right hands...

Andy*

Daniel Beaudoin

•

Thu, 3:34 PM

Or if they were trying to hide from the nia

Melissa

•

Thu, 3:34 PM

Possibly Green Flash Productions?

The guys behind the NOMAD trailer

Mustafa

•

Thu, 3:34 PM

possibly. Because NOMAD has began to surface against adversity

Daniel Beaudoin

•

Thu, 3:34 PM

Melissa

•

Thu, 3:34 PM

I'd say it can carry rather than is ordered data.

Mike

•

Thu, 3:35 PM

What was his screenplay titled?

Daniel Beaudoin

•

Thu, 3:35 PM

No clue

Mustafa

•

Thu, 3:35 PM

Lots of people started investigating the Blair witch legend after the movie went out. Pushing that screen play will probably make the nia take a move again

Andy nominus's real name was Morgan

Melissa

•

Thu, 3:39 PM

As I best remember, we only had about 10 or 20 pages of the script. It is my belief that screenplays are much longer.

Do we know his name was Morgan?

Edgar

•

Thu, 3:39 PM

Sounds more like a pitch than a screenplay

Nikolas

•

Thu, 3:39 PM

It would be interesting to know what happened to Morgan.

Edgar

•

Thu, 3:40 PM

That's what his agent says in the letter

Melissa

•

Thu, 3:40 PM

Ah. I had forgotten that letter.

Edgar

•

Thu, 3:40 PM

Morgan's script. He writes under the pseudonym because he normally does comedy

Melissa

•

Thu, 3:40 PM

That is correct. Good memory.

Edgar

•

Thu, 3:41 PM

Morgan...hmmm

Morgan FREEMAN should do the voice over for the ENDGAME movie

just sayin

Nikolas

•

Thu, 3:45 PM

^THIS

Thomas Arteaga

•

Thu, 3:45 PM

Hopefully we'll get back to that mention of a dream-vision of what happened to Hank in the cave...

Anthony

•

Thu, 3:45 PM

Looking at the file it seems that we have the reference file number for the script department

Melissa

•

Thu, 3:46 PM

^

Hank, so mysterious

Nikolas

•

Thu, 3:46 PM

Probably long since confiscated but interesting to note

Melissa

•

Thu, 3:46 PM

Hmm.. how much of it did Loeb find vs how much of it he shared?

Could he have the whole thing?

did he mention how much of it he found?
