

Library Mission Statement

The mission of Nixon-Smiley CISD Secondary School Libraries is to empower students to take charge of their learning in a space built for exploration, growth, and creativity. We inspire a lifelong love of reading, support critical thinking, and help students develop the skills they need to succeed—whether they're headed to college, the military, or directly into the workforce. Through diverse resources, engaging programs, and collaborative learning opportunities, our libraries prepare students to think deeply, act responsibly, and discover their unique potential as they shape their futures.
