**Read the text above to answer the question no. 4-7!**

**Rafflesia Flowers**

Rafflesia flowers live in the Park National Bengkulu and has a diameter of almost 1 meter. The rafflesia flowers are also called carcass flowers because they smell very rotten. At present the flowers are endangered because of their limited habitat. Indonesia and the countries its join ASEAN to work together to help preserve rare flora and fauna. The countries in Southeast Asia under the auspices of ASEAN have geographical agreements. For this reason, there are many differences in terms of culture, flora, fauna, economic activities, and politics. The nature and culture of the ASEAN countries is very interesting.
