

Materials

1. Writing implement
2. Bingo Sheet found through this link:
<https://myfreebingocards.com/bingo-card-generator/edit/pugup>

Instructions

1. Similar to normal bingo, but with numbers
2. Call out the number, and students find the number in a different form on their board

Examples

1. For the board to the right →
2. The number 0.1
 - a. Students choose $\frac{1}{10}$
3. The number $\frac{9}{10}$
 - a. Students choose 0.9
4. The number 5%
 - a. Students choose $\frac{5}{100}$

Modifications

1. Use different boards generated by the link above
