Nervous/Worried tone but comforting: "Well don't worry, how about you sleep at my house tonight, alright?" **stands up** "C'mon Let's go"

2. **Proud and playful tone** "From now on your name will be Minty" **chuckles** "Hehe do you like it? I'm still surprised my parents even allowed me to keep you " **slowly, into a sadder tone** "Well they are a bit strict sometimes, but I'm sure you'll love them."
3. **Tired and Calm tone** "Oh Minty, what did I do to deserve you? **yawning speaking while she's slowly falling asleep** "You are such a good kitty, you know that? You're my best friend, always and forever"
4. **Anxious/Crying tone** "I promise dad, I studied the whole night for it. I tried everything but it just won't get into my head. Next time I'll do better I promise. I-I try harder this time I-" **Interrupted by her dad slapping her in the face. She lets out a scream of pain fading into her just quietly crying**

Breaking into crying "Why do I always have to ruin things, I'm so so sorry."
7. **Sobbing breaking voice, with small angry undertones** "I-I just don't understand, just why can't they get along for once? Is this normal? Is this how things go once you fall in love?
