**Quality Assurance, Technical Assistance, Management and Evaluation (QATAME) Report**

---

Title of Training: Culminating Activity October 2024  
Venue: General Mariano Alvarez Technical High School  
Inclusive Date: October 1, 2024  
Participants: Grade 10 TVE-Home Economics Students  
Proponent: Ms. Melchora C. Saguibo  
Facilitator(s)/Speaker(s): Chef Reco Ferrer

|                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>M&amp;E Session Analysis</b>                | 3.40 with the verbal interpretation of Outstanding                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>M&amp;E Overall Analysis</b>                | 3.57 with the verbal interpretation of Outstanding                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>General Comments and Issues Encountered</b> | The participants generally enjoyed the program and learned a lot from the session, particularly about baking. However, several suggested improvements include providing a free taste of the products, allowing students to participate in the activities for hands-on experience, and ensuring better time management. Some mentioned that the screen size and audio were issues for those seated farther away, making it harder to follow the demonstration. The session was well-received, but adding interactive elements and more fun activities could further engage students. Overall, the event was appreciated, with many expressing hope for similar sessions in the future. |
| <b>Recommendation</b>                          | It is recommended to maintain the high level of informative content, as participants found the session valuable. Continuing the current approach with well-organized and clear presentations will be beneficial. Although many responses indicated satisfaction, allocating more time for the session could enhance engagement and allow for deeper exploration of the topics. Encouraging interaction or Q&A might further enrich the experience. Lastly, maintaining consistency in the quality of future sessions will help sustain positive feedback.                                                                                                                             |
| <b>Highlight of the Activity</b>               | In this activity, participants learned various baking techniques, including how to make different types of pastries, cakes, and bread. A key takeaway was understanding the science behind ingredients, such as yeast's role in rising and the effects of temperature on consistency. They also gained practical skills in cake decorating, making dough, and using tools like mixers effectively. Tips for starting a baking business and using alternative products were shared, enhancing the participants' confidence in baking. Overall, the program transformed many from basic recipe followers to confident bakers with a deeper understanding of the craft.                  |
| <b>Learning Insights</b>                       | The learning insight highlights how the program deepened students' knowledge and skills in baking, particularly pastries. Many participants emphasized the practical application of the techniques in future laboratories and personal projects. It also fostered a better understanding of ingredient selection and preparation methods, improving their overall culinary competence. The experience encouraged creativity and adaptability, which students believe will be useful for future academic and business ventures. Overall, it has broadened their confidence and ability to bake with precision and artistry.                                                            |
