

Privacy Policy

Halil Şahin built the HedefApp app as a Free app. This SERVICE is provided by Halil Şahin at no cost and is intended for use as is.

This page is used to inform visitors regarding my policies with the collection, use, and disclosure of Personal Information if anyone decided to use my Service.

Information Collection and Use

For a better experience, while using our Service, I may require you to provide us with certain personally identifiable information. The app does use third-party services that may collect information used to identify you.

Link to the privacy policy of third-party service providers used by the app:

- Google Play Services
- AdMob

Log Data

I want to inform you that whenever you use my Service, in a case of an error in the app I collect data and information (through third-party products) on your phone called Log Data.

Data Retention Policy

I do not retain or store your personal data on any external servers. Any data or settings you create within HedefApp are stored locally on your device's secure storage. However, third-party service providers (such as Google Play Services and AdMob) may collect and retain information according to their own privacy policies. Log Data collected during app crashes is only used for temporary troubleshooting and is not kept longer than necessary to resolve the technical issue.

Data Deletion and User Rights

Since your data is stored locally on your device, you can delete all of your personal data, progress, and application settings at any time simply by clearing the app data in your device settings or by uninstalling the HedefApp application.

If you have any concerns or believe that any personal information has been inadvertently collected, you have the right to request its permanent deletion. You can send your deletion requests directly to me via email at hello.hedefapp@gmail.com, and I will process your request promptly.

Changes to This Privacy Policy

I may update our Privacy Policy from time to time. Thus, you are advised to review this page periodically for any changes.
