

## **What is Planner 5D?**

Planner 5D is an easy-to-use home design platform, which allows anyone to create floor plans and interior designs in minutes without any specialist skills by using powerful AI, VR & AR technologies. Today Planner 5D helps more than 74 million users who have created over 160 million designs to renovate their homes, change interior designs, choose new furniture and decoration. Planner 5D is available on all platforms including Web, iOS, macOS, Android, and Windows 10.

Planner 5D has a distinctive feature of digitizing floor plans using machine learning. It is compatible with any interior project. Planner 5D also allows users to create full-size and responsive interior simulations to be explored with AR.

## **How many people are in the Planner 5D team?**

There are currently more than 60 team members and no typical corporate hierarchies at Planner 5D. Our team works in 4 cross-sectional groups: Development, Product, Business & 3D Design.

## **What sort of funding does Planner 5D have?**

Since its founding in 2010, Planner 5D received \$1.5M from IMI.VC and Farminers. Since then the company hasn't raised any further funding, used its own revenue to grow, and reached profitability. Now Planner 5D is a successful and growing global company that is turning from an interior design app to a sophisticated ecosystem for design and home improvement.

## **Where is Planner 5D based?**

We're based in Vilnius, Lithuania.

## **How did you get the idea for the Planner 5D?**

Back in 2010 Alexey Sheremetyev and Sergey Nosyrev became homeowners and were searching for a home renovation tool. They didn't find what they were looking for and decided to build a new product.

Since its launch, Planner 5D grew to become a global community of amateur and professional designers who create around 150K projects every day.

## **Is Planner 5D safe to use?**

Preserving the security of our users' data is one of our core values.

Planner 5D is GDPR compliant, and we're striving to build our compliance in the best possible way.
