Russia - Canada High School DUAL DIPLOMA On-Line:

1) Dual Diploma Background & Unique Advantages

BACKGROUND:

As parents we always want to provide our kids with the tools & opportunities to be **BEST PREPARED** to succeed in the future.

It is paramount for parents to be strategic & careful when selecting a reputable local middle & secondary school, for their children to have strong chances to be accepted to a reputable local university in their chosen field of study.

INTERNATIONAL HIGHSCHOOL DIPLOMAS IN RUSSIA:

Many reputable government & private secondary schools in Russia have been offering foreign diploma programs for the past decade, which increase the chances for their kids, to gain acceptance to universities abroad: Europe & North America.

Programs such as: The Swiss based secondary **I.B. Program** (International Baccalaureate) & The U.K based **Cambridge International Curriculum** are now offered in Russia

Both these programs require local schools to be Certified as **“IB World School”** and as an approved school to become part of **“The Global Community of Cambridge Schools”** respectively.

LOCAL SCHOOL CERTIFICATIONS: These certifications can take up to 5 years for local schools to prepare their management, teachers & technical infrastructure to be approved.

LOCAL TEACHERS QUALIFICATIONS: In both programs instructors must be certified by the foreign school authorities, for them to be able to teach their curriculum topics (credits), as well as to assure their proficiency in the English Language.

PARENTS INVESTMENT: FEES parents need to pay on a monthly basis for 7 to 11 years are substantial!! Currently, these programs encourage parents to enroll their children from Grade 1 or

Grade 5, claiming their programs deliver critical & creative thinking to local students from Grade 1 to Grade 11.

2) RUSSIA – CANADA DUAL DIPLOMA **ADVANTAGES:**

CANADIAN HIGH SCHOOL DIPLOMA:

The Canadian education system is one of the most reputable in the world.

Canadian Secondary / High School Diplomas, are widely recognized and accepted to gain acceptance to any University in the “Commonwealth Countries” such as Canada, UK, Australia, as well as in the United States & The European Union.

The “Commonwealth” is home to 1/3 of the global population: 2.5 Billion people in 5 continents - 56 countries (former British colonies).

Compared to the “**I.B. Program**” & “**The Cambridge International Curriculum Program**”, acquiring a “Canadian High School Diploma” will give your kids the following UNIQUE edge:

- **SHORTER PROGRAM DURATION:** ONLY 4 years! PARALLEL to their Russian secondary studies, kids will ONLY have to focus on their Canadian High School education for 4 years, starting in Grade 8. Students must complete a total of 8 Credits, Canadian requirement for international secondary students (4 English & 4 related to their chosen field of university studies).
- **FULLY ON-LINE:** The Canadian Ministry of Education has for the first time (school cycle 2023-24), allowed its Dual Diploma to be delivered remotely 100%. Prior to this, International students needed to study Grade 12 in person at a Canadian Secondary school.
- **TOP TEACHING QUALITY GUARANTEED:** All (8) necessary credits required by the Canadian Ministry of Education to attain the DUAL DIPLOMA, are delivered following the strict quality control of its curricula & the qualified Native Speaking instructors participating in this program.
- **SUBSTANTIAL PARENTAL INVESTMENT REDUCTION: 75% less!** The Fees for this program are on a yearly per-credit-basis (for 4 years), not on a monthly fee to attend the local school (for 7 to 11 years). This makes this program more affordable to a larger number of families.
- **SOCIAL RESPONSIBILITY:** Together with our “Local Partner Secondary Schools” we are committed to work in tandem, to implement a special Fund, which will benefit underprivileged families whose kids excel academically. Additional language preparation, social & environmental initiatives will be at the forefront of this Fund.
- **ENGLISH PROFICIENCY PREPARATION:** Participating students need to have a confirmed B1 level of proficiency, to be able to start this Dual Diploma program in Grade 8. If they do not, they have 3 years to prepare locally, to achieve this benchmark (starting in Grade 5).

If your secondary school is interested to find out more about how to make this “Russia – Canada Dual Diploma On-Line” available to your students in future and become a “Local Partner School”, CONTACT US FOR AN INDIVIDUAL INFORMATION CONSULTATION. We will start offering this programs in September 2024.

3) **INDIVIDUAL CONSULTATION:**

If you think that our “**Russia – Canada High School Dual Diploma On-Line**” is an interesting option which will benefit your child to reach his / her professional goals by gaining access to a foreign university, OR if you would like to find out how this Dual Program could impact on your child’s future, you **MUST** contact us to schedule a private appointment.

During this face-to-face informative session, we will explain in detail everything related to preparing for, starting and successfully completing this Dual Diploma program.
