July 31, 2026

Dear Parents/Guardians:

Ohio school districts are required to provide parents with notification of the circumstances in which the District or an affiliated technology provider accesses or monitors your child's school-issued device as defined by state law. This letter serves as this notice.

Technology Provider Contracts

A list of technology providers that may have access to student educational records for the purpose of providing curriculum, testing, or assessment services may be found [here](#).

General Monitoring of School-Issued Devices

Please be aware that the District, either directly or through a technology provider, is electing to generally monitor all school-issued devices (as that term is defined by R.C. 3319.325). The monitoring will include the following features: student interactions with school-issued devices (e.g., keystrokes and web-browsing activity). The District generally monitors these features for the non-commercial education purpose of instruction, technical support, and/or exam proctoring. Additionally, these features are generally monitored (ex: Securly, GoGuardian) as a necessary precaution for preventing and/or responding to threats to life or safety.

If you have any questions or concerns regarding this notification, please contact me.
