

FOR YOUR OWN SENATORS:

CALL TEMPLATE:

Hello, my name is {YOUR NAME} and I'm a resident of {YOUR STATE}. The newest budget reconciliation bill includes a 10-year ban pre-empting state AI legislation without establishing any federal guardrails. This is extremely concerning to me – leading experts warn us that AI could cause mass harm within the next few years, but this provision would prevent states from protecting their citizens from AI crises for the next decade.

I'd like the Senator to speak out against this provision and fight to have it removed.

EMAIL TEMPLATE:

Dear Senator X,

I'm writing as a resident of {YOUR STATE} to **urge you to oppose the ten-year moratorium on state regulation of AI** that passed the House in May as part of the reconciliation package. The moratorium serves one purpose: to eliminate states' efforts to protect their citizens from the emerging challenges posed by AI.

This is deeply concerning to me, as thousands of leading scientists warn that out-of-control AI development could threaten us all. This provision would make AI security even more challenging, hinder states' ability to protect their citizens from AI threats, and risk federal inaction.

States' continuing efforts to refine their approaches toward AI will serve as an important foundation for eventual federal legislation. For that reason, the moratorium has been opposed by bipartisan groups of state attorneys general and state legislators.

Please speak out against this provision and fight to have it removed. Thank you very much for your time and consideration.

Sincerely,
YOUR NAME

FOR “SWAY VOTES”:

CALL TEMPLATE:

Hello, my name is {YOUR NAME} and I’m calling as a concerned citizen. The newest budget reconciliation bill includes a 10-year ban pre-empting state AI legislation without establishing any federal guardrails. This is extremely concerning to me – leading experts warn us that AI could cause mass harm within the next few years, but this provision would prevent states from protecting their citizens from AI crises for the next decade.

I’d like the Senator to speak out against this provision and fight to have it removed.

EMAIL TEMPLATE:

Dear Senator X,

I’m writing to voice my concern about AI, and to **urge you to oppose the ten-year moratorium on state regulation of AI** that passed the House in May as part of the reconciliation package. The moratorium serves one purpose: to eliminate states’ efforts to protect their citizens from the emerging challenges posed by AI.

This is deeply concerning to me, as thousands of leading scientists warn that out-of-control AI development could threaten us all. This provision would make AI security even more challenging, hinder states’ ability to protect their citizens from AI threats, and risk federal inaction.

States’ continuing efforts to refine their approaches toward AI will serve as an important foundation for eventual federal legislation. For that reason, the moratorium has been opposed by bipartisan groups of state attorneys general and state legislators.

Please speak out against this provision and fight to have it removed. Thank you very much for your time and consideration.

Sincerely,

FOR REPUBLICAN OPPONENTS OF THE BAN:

CALL TEMPLATE:

Hello, my name is {YOUR NAME} and I'm calling to thank the Senator for pushing back on the 10-year ban on state regulation of AI included in the House's reconciliation package. This provision would make AI security even more challenging, hinder states' ability to protect their citizens from AI threats, and risk federal inaction.

I'd like to ask the Senator to continue fighting against this provision, and to urge their colleagues to do the same.

EMAIL TEMPLATE:

Dear Senator {NAME},

I want to thank you for pushing back on the 10-year ban on state regulation of artificial intelligence included in the House's reconciliation package. This provision would make AI security even more challenging, hinder states' ability to protect their citizens from AI threats, and risk federal inaction. The moratorium would be a massive handout to the companies deploying AI with no safeguards, and it would deprive Congress of state models as it continues to shape federal legislation.

Please continue to fight against this insane provision, and urge your colleagues to do the same.

Thank you again for standing up to Big Tech.

Sincerely,
[name]
