__COURSE ACCESS FOR ADDITIONAL 12 MONTHS UNTIL END DECEMBER 2025__

Components:

Modules: Pre-recorded content and activities released each scheduled week at ~8am AEST/AEDT. Each module has a short quiz at the end to measure completion, which unlocks the next module (once it's released). Modules usually take ~2 hours - some are shorter and some are longer.

Integration Weeks: Weeks where no new content is released, to allow for time for further review of materials, catch-up on the course, and to implement into your clinical practice.

Optional Live Calls: Held once per month, often in Integration Weeks. An opportunity to ask questions, discuss your current progress in the course, share your wins or challenges with the course and/or your clinical practice. These are all recorded and uploaded.
