PRIVACY POLICY

Last Updated: 08.04.2026

This Privacy Policy describes how Electricity Calculation ("we", "our", or "the app") collects, uses, and shares information when you use our mobile application.

1. Information Collection and Use

To provide a better experience, our app uses third-party services that may collect information used to identify you. These services include:

- Google AdMob: Used for displaying advertisements. AdMob may collect and use your advertising ID (e.g., AAID) to show personalized or non-personalized ads based on your consent.
- Firebase Analytics: Helps us understand how users interact with the app (e.g., which calculation tools are used most) to improve our features.
- Firebase Crashlytics: Collects anonymous crash reports and diagnostic data to help us fix bugs and improve stability.
- Google Play Billing: Donations and in-app purchases are processed securely through the Google Play Store. We do not collect or store your financial or credit card information.

2. Data Safety and Security

We value your trust in providing us your information. All data transmitted by third-party SDKs (Google/Firebase) is encrypted in transit using HTTPS. While we strive to use commercially acceptable means of protecting your data, please remember that no method of transmission over the internet is 100% secure.

3. User Consent (GDPR/CCPA)

We use the Google User Messaging Platform (UMP) to manage user consent. Upon opening the app, you are given the choice to allow or deny data collection for personalized advertising and analytics. You can change your preferences at any time within the app settings or by clearing the app data.

4. Data Deletion Rights

Users have the right to request the deletion of their data. Since we do not collect personal identifiers like names or emails directly, most data is anonymous. However, if you wish to request the deletion of any associated diagnostic data or have questions regarding your privacy, please contact us.

5. Contact Us

If you have any questions or suggestions about our Privacy Policy, do not hesitate to contact us: Email: gokhan27m@hotmail.com
